WEATHER—Showers tonight and possible Wednesday.

There is not much doubt that the blustering noise from Oyster Bay is from someone who considers Governor Glenn an interfering, if not an undesirable citizen.

As a platform maker Uncle Joe Cannon beats Mr. Fairbanks out of sight. He stands pat on the mint julep, while Mr. Fairbanks pins his faith to forty new fangled Manhattan cocktails. Qui vine?

The Republican leaders who have agreed to postpone tariff revision until after the next national election on the score of expediency must face the dilemma of having placed the good of the party before the welfare of the people.

It would be interesting to know if the President still considers William D. Haywood an "undesirable citizen" in spite of the fact that a jury of his countrymen have acquitted him of the crime charged against him.

Senator Foraker has sent in a general fire alarm to Ohio Republicans to arouse them to fight against endorsing Taft for President. As Taft is regarded as an understudy of the President there would appear to be anything but harmony among Ohio Republicans. Turn the rascals out.

The railroad attorneys in North Carolina now declare they were forced to submit to the ultimatum of Governor Glenn. If we only had a President with the same amount of backbone in fighting corporations instead of compromising with them the people would soon get reasonable rates.

Elizabeth Fairfax Ayres declares that Col. Ayres saved Roosevelt and the Rough Riders at San Juan Hill and she has the evidence to prove it. This fighting lady also declares that President Roosevelt cannot deny it as he did in the matter with his "dear Maria." "Let us have peace," is the motto Loeb has hung up at Oyster Bay.

Now the State governments have taken up the game of battle cast at them by Secretary Root, that if the States did not do their duty in the control of corporations the general government would have to do it for them and are bringing the corporations to time. We may expect another warning from the administration of the danger of state rights and home rule.

Don't be disheartened with our reform administration when you see the Cabinet officers and many of the lesser Republicans lights running all over the country instead of attending to business. The only way they can keep their places is by strict attention to setting up the pins for delegates that can be handled by Teddy when the time comes. What patriotic Republican can object to such a laudable scheme for perpetuating "my policies" and, of course Democrats must grin and bear it.

Have you read the Leopard's Spots and the Glensmen? Then don't miss the third book on the negro problem by Thomas Dixon, Jr.

CECILIA LOFTUS AND HER PET KITTEN.

Miss Cecilia Loftus, who in her earlier days on the stage was affectionately known as Cissy, is extremely fond of animal pets. Her favorite is a certain cat which is shown in the photograph. Miss Loftus began her work at such an early age that for her stage name Cissy Loftus was deemed appropriate. When she attained the dignity of leading lady for Sir Henry Irving she became Cecilia. Her real name was Marie Cecilia Brown.

The Glenn nerve tonic from North Carolina is likely to become more popular than the Fairbanks cocktail from Indiana.

It seems rather strange that no delegations with brass bands are sent to meet Senator Foraker when he enters a city. He seems able to "walk right in, turn around and walk right out again," just like any other ordinary man.

Commander R. B. Brown of the U. S. A. R. has pledged Senator Foraker the support of the old soldiers for the presidency, whenever the opportunity presents itself. Present indications are that "Thar ain't goin' to be no opportunity."

## Political Talk

**POLITICAL CONVENTION.**  
Chicago is already at work to secure both the Republican and the Democratic National Conventions in 1908, offering in addition to the customary financial guarantees the inducement of an immense new convention building.

An auditorium of the magnitude indicated would provide accommodations for an unusual number of spectators and furnish opportunity for unwelcome pandemonium and party hysteria. It would enable the galleries to exert a more pernicious influence on the proceedings than ever before.

Such conditions are opposed to the best interests of national politics. Conventions for the nomination of Presidential candidates should be deliberative bodies in the true meaning of the term. They should be conducted with a dignity and decorum which is impossible in the presence of partisan crooks over whose outbursts the presiding officer has no control.

It is a proper time to reform the existing abuses by limiting the attendance to members and their alternates and abolishing the system of admission tickets for favored constituents, along with the popular excursion features, which should be foreign to assemblages of this character.—N. Y. World.

**AN OHIO PRODUCT.**

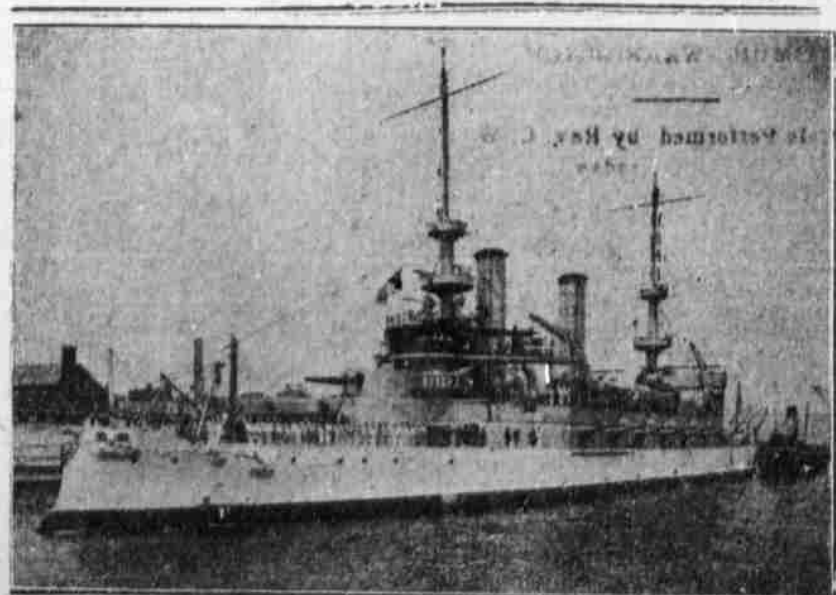

Two Ohio men, the Wright brothers of Dayton, seem to have taken a hrewd advantage of the glowering at-

titude France and Germany have maintained since 1870. The Wright brothers have a mysterious aeroplane which, if it is as successful as they claim it to be, is the only flying machine of its kind. While the international convention, prohibiting the dropping of explosives from balloons in war has not been in force for several years, neither warring Russia and Japan, nor any other nations have taken advantage of the right to use war balloons. This is because balloons or flying machines suspended from a floating, inflated gas bag, can not be utilized for this purpose. They promptly seek and hold an equilibrium in the air and the surrender of a few ounces of ballast is enough to send them shooting skyward. The throwing overhead of enough explosive to do any real damage would send the balloon of floating gas bag upward with such force as to rip the silk envelope. The gas balloon is so far useful in war only for observation purposes.

An aeroplane is suspended on the resistance of the air. It can be lightened of dynamite bombs in wholesale quantities. The difficulty so far presented is that no successful aeroplane has been offered to the world. The United States had enough of aeroplane experiments when it backed Prof. Langley's failure and had to answer to a sharp tongued congress therefor.

The Wright brothers have rested on their own claim that they had perfected an aeroplane, declining further public information. The tests of their machine have all been private. But they figured accurately that either France or Germany would buy a fighting pig in a poke rather than to see the pig added to the war equipment of the other nation. It seems to be France which has bought the pig. The Wright brothers first called at Berlin whence dispatches of negotiations with the German general staff were sent out which were well calculated to re-use French jealousy and fear. At the proper moments the Wrights broke with the Germans. The French jumped at this chance to capture the prize. The mysterious machine has been shipped from Dayton to Paris.

It is doubtful whether France has secured a weapon that will raise any hair under the spiked helmets that bristle on her eastern borders. The Wright brothers themselves explained their refusal to give a public exhibition of their aeroplane on the ground that it was so simple in principle that any scientific observer could steal the idea and promptly duplicate it for himself. If the Wright aeroplane is a success in France it is not likely to be long before the German ordinance corps is building a duplicate

U. S. BATTLESHIP, "KENTUCKY."  
Capt. Edward G. Barry; tonnage, 11,625; guns, 22; speed, 16 knots.

from stolen plans. Meanwhile army officers everywhere will remain skeptical as to the military value of flying machines. Bunt the two Ohio men seem to have played the game of international politics with shrewd skill and good profit.—Cleveland Plain Dealer.

## What Others Say.

**AUTOMOBILES AND SOCIETY.**  
From Pittsburg comes a disquieting report on the social result of the automobile craze. It is to the effect that the race for social prestige is so hot that men are mortgaging their homes and endangering the savings of years in order to supply their wives with automobiles of the proper splendor. "Mothers," says the report "are neglecting their children and driving their husbands to the wall that they may shine in automobile circles."

This information, printed in the Pittsburg Dispatch, is attributed to a committee of the women's clubs that has been making some inquiries to ascertain the facts. The revelations have at least alarmed the committee which says: "Something must be done and done quickly."

Pittsburg has a good many social excesses to answer for and it doubtless, like other communities, has some cases of this sort. That the condition is general, however, nobody is likely to believe. The salubrity of the people, even in Pittsburg must still be classed as "safe and sane."—Columbus Dispatch.

## FROM THE COMMONER.

The Knox presidential boom is standing on its dignity.

The emperor of Korea was a "stand-atter" until he was bumped.

Colonel Martin seems to be holding second place to at least one presidential boom.

The Cortelyou presidential boom recalls the issue of government by subscription.

Now will the papers that shouted against government ownership shy at effective legislation?

There is no doubt that the republican party is getting into deep water but can Fairbanks rescue it?

The president is enjoying a rest at Oyster Bay, but his press agent seems to be working overtime.

If the one-rail railroad becomes a success, the steel trust will insist upon an increase in the tariff revision.

The trouble about a stiff fine for the Standard Oil company is the "flare-back" that is sure to catch the public.

The Cortelyou presidential boom calculated to make Cornelius H. Bliss sit up and reach for his receipt book.

Why all this fuss about an occasional Jap photographing our forts. That is the only way they can ever "take" him.

After all, it seems that Mr. Rockefeller was not one-half so excited as Judge Landis, the bailiffs and the general populace.

"Is the bathing suit a crime?" queries a southern contemporary. Well, hardly. At most it can be only a petty misdemeanor.

At least we must give the Japanese credit for not making any pretensions of being engaged in the task of "benevolent assimilation."

One of Mr. Rockefeller's near relatives says he "lives in the clouds." It is about time for those clouds to do a little precipitating.

John Temple Graves having admitted that a reformed paragoner can go to heaven, the Washington Herald asks: "But can a reformed paragoner get a job?" Of course, but not as a paragoner. He can get a job writing long editorials for a paper that nobody reads.

It is reported that President Roosevelt will be satisfied with Joseph G. Cannon as his successor. If this is true it makes 't two.

The New York Herald is shrieking loudly for war with Japan. The man who is responsible for the New York Herald lives in Paris.

Perhaps Mr. Rockefeller pleads ignorance on the ground that in his particular case a little knowledge would be a dangerous thing.

Now comes the report from England that the son of an earl has gone to work. The American heiress must have turned him down.

"Hot biscuit passing away" is the caption of a little article contributed to the New Orleans Daily States by a household writer. It is correct. They pass rapidly away when brought in proximity to the average man.

# GOVERNOR IS ILL

Ohio's Chief Executive is in the Toledo State Hospital—Condition not Serious.

Toledo, O., Aug. 7.—Governor Harris is threatened with pneumonia and on the advice of two physicians spent Tuesday afternoon in Delancey in his room, leaving only to take the train to Toledo. Last night he was placed in the state hospital under the care of Dr. Love.

It is announced that Gov. Harris and his wife will leave for Columbus this afternoon. Dr. Love also stated that the condition of the governor was not such as to cause any misapprehension but that he would have to have a little rest and quiet.

The governor was one of a crowd which came here from Put-in-Bay and spent the night with his friend Dr. Love. Yesterday morning he went to Delancey to attend the Spanish War Veterans' meeting. He took an active part in the morning's ceremonies but just before noon he complained of feeling ill.

His condition became somewhat aggravated and he was taken to the Crosby house and two physicians were summoned. They announced that he was threatened with pneumonia and ordered him to stay in his room during the afternoon. Word was sent to his wife, who remained in Toledo, but she was not worried, saying she knew the governor had taken cold.

The real cause of the cold which threatened pneumonia is a trip made from Camp Perry to Put-in-Bay. The governor's party used a small launch and the high sea that was rolling completely saturated everybody aboard. Then the governor took active part in the unveiling ceremonies. This started the trouble which ended in his being out in the hospital.

Toledo, O., August 7.—Governor Harris is a guest at the Toledo state hospital for insane. Dr. Love, superintendent, took charge of him when he arrived in Toledo, being alarmed by the exaggerated reports of his illness. The governor spent a quiet night and this morning was up early on a tour of inspection. He visited all departments of the hospital and appeared to have fully recovered from his illness. He is still suffering from the aggravating cold contracted at Put-in-Bay.

# BODY IN A TRUNK

French Authorities Discover a Crime and Arrest Two Suspects.

Marseilles, France, Aug. 7.—A trunk belonging to a man and woman, who arrived yesterday from Monte Carlo, attracted the attention of the baggage master, who caused it to be opened, and it was found to contain the body of a woman, cut to pieces. The man and woman owning the trunk were arrested. They had asked that it be forwarded to London.

The couple, who are middle-aged and gave the names of Mr. and Mrs. Gold, residents of Monte Carlo, denied they committed the crime, and informed the examining magistrate that they knew the victim, who is said to be Theresa Williams, aged 37, a Swede, only slightly. While the latter was at her home, the villa Menosimy, on Sunday last, Mr. and Mrs. Gold said that the woman's lover arrived there and blew out her brains. The Golds, fearing they would be compromised, tried to get rid of the corpse. The head and feet were in the valise and the rest of the body was in the trunk.

## Political Announcements

**FOR REPRESENTATIVE.**  
To the Democrats of Marion County: If you think my efforts on behalf of Democracy and W. J. Bryan in the campaign of 1906 and 1908 entitle me to the nomination for Representative to the Seventy-seventh general assembly of the State of Ohio, I will certainly appreciate any effort on your part for any support given.  
M. B. CHASE.

## VENEZUELA DECIDES TO PAY HER DEBTS

Caracas, Saturday, Aug. 3, via Willemstad, Curacao, Aug. 7.—Venezuela advised Belgium last Wednesday July 31 that in recognition of the principle of arbitration she would pay the disputed claims of Belgium creditors, amounting to \$2,000,000, in conformity with the decision of The Hague tribunal.

This action on the part of the government strengthens President Castro in his refusal to reopen the matter of the five American claims against Venezuela which already have been arbitrated.

Last month Venezuela intimated very broadly that she would not pay the Belgian claims, whereupon Belgium intimated that if Venezuela persisted in her refusal she would protest to the powers and also take on the matter with the United States.

# FORAKER IS GUN-SHY

He Refuses to Debate Against Tillman and Jabs Roosevelt in the Short Ribs.

Cambridge, O., Aug. 7.—Senator Joseph B. Foraker in his address at the Cambridge, Chautauque assembly here yesterday afternoon said that he had not asked the question: "Where do the revisionists propose to begin to revise the tariff?" With the thought of engaging in a debate, although misconstruction of what he had said had brought forth a challenge to a debate from Senator Tillman at Coshocton a few days since.

Senator Foraker strongly defended himself and his stand in the three matters, in each of which he opposed President Roosevelt.

He was here as a Grand Army speaker, and General R. R. Brown of Zanesville, national commander of the G. A. R., preceded him with a number of glowing tributes to him in his efforts to help and uplift the war veteran. Although General Brown stated that the Grand Army was not in politics, he said that the veteran ranks stood ready to support this statesman of Ohio for the highest honor in the country, meaning the presidency, when the opportunity so presented itself.

## HALF A MAN'S BODY HELD BY EACH STATE

El Paso, Tex., Aug. 7.—One half of a man's body held by the authorities of one state and each state refusing to give up the half it holds, is a situation existing in Mexico according to a report received last night.

## Marion Clothing & Cloak Co.

Miguel Martinez, a Mexican Central brakeman, went to sleep under one of the cars of his train while it was on a siding at Espritus Santo, Zacatecas. The train started up and cut him in two at the belt. Half the body rolled to the side of the track and the other half, becoming tangled in the brake beam and was carried to Salinas, San Luis Potosi.

The coroner's state took possession of half of the body and each refuses to turn the half he has over to the other. No official investigation can proceed without a whole corpse as the basis, hence the authorities are at swords' points and the relatives of the dead man are unable to do anything.

## ANGRY MOB ATTACKS A CLEVELAND MAN

Cleveland, O., Aug. 7.—Angry men and women formed a mob which threatened to lynch Walter McCracken, a carpenter, on Carnegie avenue, S. E., who last evening approached with insults, the police say, two little girls.

As a half dozen men held McCracken to the ground and were beating him with whips and kicking him with their feet, others were searching for a rope.

The arrival of a wagon load of policemen out on a riot summons undoubtedly saved McCracken's life. He was quickly fastened into the patrol wagon and locked up in safety from the mob.
